You've worked hard as an educator and have saved for retirement. Now that retirement is here, you may be wondering what decisions need to be made. You may be asking, "Will I have enough to retire? Will my money last through retirement? Which assets should be accessed now and in the future? How can I maximize my retirement accounts? Will a Social Security offset affect me? How can I minimize taxes and maximize returns?"

Learn answers to these questions and more from Todd Wooten, a Retirement Planning Professional and IRA Preservation Specialist.
